

# METALAP2018

## Asia-Pacific Metal Industry Exhibition

2018. 9. 19-21 | BITEC, Bangkok, Thailand

- ◆ Die casting
- ◆ Foundry
- ◆ Furnace and Heat Treatment
- ◆ Metallurgy

Organized by Productivity Promotion Center of Foundry Industry of China

Co-Organized by  
 Thai Foundry Association  
 Japan Foundry Engineering Society  
 Korea Foundry Society  
 Vietnam Foundry Metallurgy Science Technology VFMSTA  
 Taiwan Foundry Society  
 NürnbergMesse Group

Operated by Shenyang Zhongzhu Foundry Productivity Promotion Center  
 Foundry Institution of Chinese Mechanical Engineering Society

### | CONTACTS |

#### Thailand

Tathai International Exhibition Centre  
 (Bangkok) Co.,Ltd.

Ms. Tariga  
 Tel: 0894016907  
 Email: exhibition@datainter.com

#### China

Productivity Promotion Centre of Foundry Industry of China

Exhibition

Ms. Lindsay Bao  
 Tel: 86 15909822864  
 Email: baolinlin@foundrynations.com

Congress

Ms. Yunxia Wang  
 Tel: 86 24-25852311-307  
 Email: wangyunxia@foundrynations.com

 Nürnberg, Germany

# METAL AP

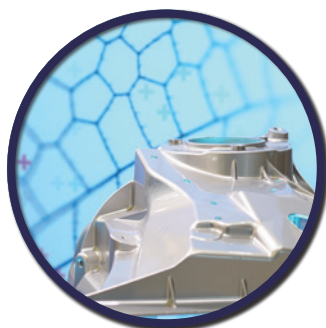

Connecting the world business

## A fast growing market attracts the attention from the world

With the global market change, the Southeast Asia market has received more and more global attention. The annual output of more than 2 million cars has become the first pillar industry in Thailand. At the same time, the steady development of the Indonesia, Malaysia, Vietnam and other countries offers more opportunities for the metal industry.

METAL AP is an integrated exhibition gathering die casting, foundry, metallurgy, furnace and heat treatment etc., which is based on Southeast Asia market and going to promote industry development including India and the entire Pan-Pacific region.

Die casting

Foundry

Furnace and Heat Treatment

Metallurgy

## Congress 2018 Asia-Pacific Metal Industry Development Forum

Theme: New market, new opportunities

Content: Based on die casting, foundry, metallurgy, industrial furnace, heat treatment and other related industries of Asia Pacific markets, the congress will provide a chance of communication on technology and market for deep win-win cooperation.

Scale: More than 300 professional delegates from China, Japan, South Korea, India, Europe, America, Southeast Asia, the United States and other countries and regions.

## Gathering leading companies under one roof

## Industry Resources

### Foundry Productivity Center of China (FPC)

FPC-the Foundry Productivity Center of China was founded in 1998. It is a national productivity promotion center fully committed to the development of foundry industry, technology and trade. FPC has organized CHINA DIECASTING over 20 years, which is acknowledged as one of the leading international exhibitions of the industry in the world.

### A Worldwide Alliance

Supported by international partners like Thai Foundry Association, Japan Foundry Engineering Society, Korea Foundry Society, Hanoi Association of Foundry & Metallurgy etc., the exhibition has the best opportunity to collect the industry resources from all over the world, and present the latest products and technologies.
